

Join Our Lunch and Learn Tips & Tricks Series for Trace Elemental Analysis

We invite you to join our Trace Elemental Analysis Lunch and Learn Webinar Series for a special virtual demonstration of Qtegra Intelligent Scientific Data Solution (ISDS) Software for the Thermo Scientific iCAP PRO ICP-OES and Thermo Scientific iCAP MX Series ICP-MS. Get general tips and advice to improve analysis quality, minimize downtime, increase laboratory efficiencies and reduce costs on your ICP-OES or ICP-MS. Learn how to get the most out of Qtegra ISDS and how Qtegra ISDS efficient workflows can enhance your laboratory.

When: 12:00 UK time

Duration: 45 minutes

Dates and topics:

Tuesday 24th February 2026: Qtegra Tips & Tricks: Part 1

Tuesday 21st April 2026: Qtegra Tips & Tricks: Part 2

Tuesday 7th July 2026: Trace Elemental Analysis Tips & Tricks

Tuesday 13th October 2026: Trace Elemental Analysis: Ask the Experts

The final Ask the Experts session is your chance to ask questions and send us topics you would like us to cover so we can tailor this session just for you. Please send us your questions in advance to analyze.eu@thermofisher.com

Each webinar will also be followed by a live Q&A session with our experts. You can ask your questions live on the day or submit them beforehand using the email address above.

Register now for the webinars which appeal to you and secure your spot!
